What We Do

Our vision is that Hampstead Heath provides a sanctuary for wildlife and people, and that it is conserved for the enjoyment of all. We believe that everyone has a role to play in protecting our green spaces through conservation, environmental education and community involvement.

What We Do

Conservation

Our conservation and volunteer programmes play a key part in managing the unique habitats of Hampstead Heath and nearby green spaces. We aim to provide balance for both wildlife and people, with many thousands of volunteers taking part throughout the year.

Community

COVID-19

Our activities are subject to change due to the operational needs of our staff and green spaces. Despite restrictions we are able to offer a relatively 'normal' programme of events and activities.

We are continually reviewing our programmes in line with government guidelines.

Our activities and workplaces have been risk assessed to ensure they are 'covid-safe'. The majority of events are delivered outdoors. Social distancing and strict hygiene procedures are in place to ensure the safety of our staff, volunteers, visitors and general public.

Please contact us for further information on any matters relating to covid or health and safety.
